*A non-profit, comprehensive online resource center designed
to help member families make college an affordable reality*

(benefits & features are on the previous page)

Mission Statement

The mission of the Tuition Rx Financial Education Association and its member advisors is to educate the general public on the opportunities and the pitfalls that face families planning to finance college. The subject of student financial aid is covered profusely in the media, but little is discussed about how to pay off college debt assumed by the parents. The association's non-profit status allows member advisors to provide free workshops to their local communities on the subject of using cash flow and cost containment strategies as an alternative to college debt.

Ethics Statement

All member advisors of the Tuition Rx Financial Education Association are responsible for maintaining the highest standards of professionalism, objectivity, integrity and confidentiality when delivering information and services to their communities. Members are also professionally required to maintain proficiency in their work and keep abreast of industry developments, striving to improve their professional competence through certification and continuing education.
